

Advocate Contract

As a SLED Advocate understands the following:

I _____ as an active member of Students Leading Education hereby agree to abide by and follow the requirements set forth and discussed with me by the SLED Advisor(s). Those requirements include but are not limited to:

1. I am responsible for my own learning

- My learning does not end outside the classroom
- A grade is not the outcome I seek, but the personal growth I gain
- Knowledge is not power if it goes unused

2. I understand that temporary defeat, is not the same as failure

- Work hard, fail a lot, but learn more
- Evidence of trying, is better than not trying at all
- Have an entrepreneurial spirit

3. I am transparent with who I am both online and IRL (in real life)

- Everything I do on the internet is written in pen, not pencil
- Even when anonymous, I understand my actions have serious effects
- I strive to live a life worth sharing

4. I realize that technology is just the paintbrush to my masterpiece

- Technology does not replace critical thinking and problem solving
- The skill set needed today is the ability to “Find, Filter, and Apply”
- Balancing artificial intelligence with human intelligence is essential

5. I am today’s leader, not tomorrow’s

- There is no problem out there I cannot solve
- My peers are the key to creating change
- I understand that by bettering others, I am bettering myself

I, _____, agree to the above statements and expectations of me as a SLED Advocate.
